

Obtaining a Controlled Substance Research License and Registration

How do I get a controlled substance license/registration?

Obtaining a license to use controlled substances is a relatively easy process, but it does take some time. You will need to get both a State of Michigan Controlled Substance Research License and a Drug Enforcement Administration (DEA) Controlled Substance Researcher Registration.

1. Obtain a State of Michigan license

Submit your State of Michigan Controlled Substance Research License first. You will need your State of Michigan Controlled Substance Research License number in order to get final approval from the DEA, so submit it first to get the process started. You do not have to wait until you receive the State of Michigan license number to submit the application for your federal DEA registration.

Applying for a State of Michigan Controlled Substance Research license is a two part process:

1. Completion of the application- Cost \$85.85
2. Criminal background check

Complete the application for a State of Michigan Controlled Substance Research License

- Fill out the application found here:
